Background

In November 2013 as part of the transfer of the LE Support application functionality from DVS to the BCA it was determined that requesting and displaying the DL photo would no longer be automatic. A purpose consistent with state statutes (MN Stat. §171.07, subd.1a) would need to be entered along with a reason that assists an agency in explaining or showing that the use of the photo met a specific business purpose.

Requiring law enforcement agencies to enter a purpose and reason for DL photo transactions enhances the general integrity of data use.
