Mission:
Serve as the state advisory group on statewide criminal justice information policy and funding issues.

Vision:
Information is available and used to promote quality of justice for all Minnesotans.

Strategies (each strategy will have an action/tactical plan with more detail):
1. Simplified and updated data practices that balance public safety and privacy rights, while allowing information sharing at the local, state and federal levels.

2. Collaborative relationships with legislature, professional associations and other key stakeholders.

3. Funding structure to support ongoing criminal justice information integration.

4. Formalized technology education and innovation.

5. Uniform criminal justice data and identification standards.
