

For a Minnesota resident to add a motorcycle endorsement to their Minnesota driver license while in the military, the applicant must submit proof of having passed comparable motorcycle knowledge and skills testing in the state of temporary residence.

Acceptable proof of passing the knowledge test consists of having either:

- A current Minnesota motorcycle permit expired less than one year.
- Completing the motorcycle knowledge test if it is not currently on record and the Minnesota resident is here on leave.
- Proof from another jurisdiction of having passed their motorcycle knowledge test.

AND

Acceptable proof of passing the skills test consists of having:

- A letter of completion on letterhead paper from the motorcycle course provider indicating:
- The date the skills test was passed.
- The type of skills test administered (MOST, ALT-MOST, BRC, RSS).

Accepting a Motorcycle Safety Foundation (MSF) card is not sufficient proof to verify that training was completed and comparable tests were passed.

If currently out of state, the applicant must submit the acceptable proof of knowledge and skill testing, along with the completed out-of-state packet for a duplicate or renewal of the Minnesota driver license and appropriate fees. Please call or email Driver and Vehicle Services with any questions or to request your renewal packet.
