Overview

Grant funded food and/or beverage expenses related to a training, exercise, and/or planning related activities hosted by the requesting entity require pre-approval from MN DPS-ECN staff. Each request will be reviewed based on the following criteria:

- The food and beverage expenses related to the event are allowable under the grant program guidelines.
- The food and beverage expenses related to the event are considered reasonable.
- The event supports the development of interoperable public safety communications capabilities on a local, regional, and/or statewide basis.
- The event aligns with statewide, regional, and/or local emergency communications needs and priorities.
- The provision of food and/or beverages supports the flow and continuity of the event.
- Event activities occur before and after the food and/or beverages are served.
- Grant funds may not be used to provide food and/or beverages for breaks, amusement, or social events. Any event where alcohol is served is considered a social event; therefore, food and beverage expenses associated with the event are not allowed.
