

Allied Radio Matrix for Emergency Response (ARMER) Standards, Protocols, Procedures

Document Section 1	Management of System	Status: Complete
State Standard Number	1.4.2	
Standard Title	Maintenance of Alias List	
Date Established	08/07/2001	SRB Approval: 12/17/2015
Replaces Document Dated	03/03/2005	
Date Revised	11/16/2015	

1. Purpose or Objective

The purpose of this standard is to define a procedure for maintaining the Radio User and Talkgroup Agency Acronym table and for cases where two or more parties are in contention over an alias, agency prefix, etc.

Login User aliases and agency acronym tables are stored within the system database and will be maintained by the Statewide System Administrator.

2. Technical Background

▪ Capabilities

Having the agency acronym table readily available to the System Managers and Administrators will facilitate agency planning and assist agencies with reference information on identifying ownership of talkgroups and radio users.

▪ Constraints

The agency acronym table must be kept up-to-date in a central location.

3. Operational Context

Radio users and talkgroups are prefixed by an agency ownership acronym, as defined in State Standard 2.2.0. The current acronym table will be kept on the system for easy access to the administration staff supporting the system. Only the first two characters are specified in the naming standard, and showing additional agency subdividing in the acronym table is optional.

4. Recommended Protocol/Standard

N/A

5. Recommended Procedure

The Statewide System Administrator will manage the contents of the agency acronym table.

If there is a conflict over acronyms that cannot be resolved by agencies involved, the issue shall be brought to the Operations and Technical Committee (OTC) for resolution.

6. Management

The Statewide System Administrator will be responsible for maintaining, archiving, updating, and distributing the agency acronym table.
