

**Minnesota Office of Justice Programs
Crime Victim Services**

Quarterly Statistical Report Forms
Fiscal Year 2015
October 1, 2014 - September 30, 2015

Summary Report

December 2015

The Minnesota Office of Justice Programs (OJP) funded 123 agencies statewide to provide direct services to victims of crime in FY15. This number decreased significantly from FY12 (139) due to a decrease in available funding and an open competitive process that made all crime victim service funding available to current and new applicants. Along with new awards were changes to which and how many quarterly statistical report forms each grant was required to submit based on their service area (see *Changes to Quarterly Statistical Report Requirements for FY13* in the appendices for details).

Please feel free to use these data as needed (e.g. newsletters, grant proposals, presentations, etc.). If you do choose to disseminate this information, please consider that although grantees are given guidelines (see *Quarterly Statistical Form Definitions* in the appendices) on collecting these data, there are hundreds of individual staff interpreting these guidelines and implementing data collection practices within their own agencies before submitting to OJP. If you have questions about these data or are interested in trend data between FY03 and FY15, you can contact Chris Anderson at 651-201-7302 or chris.anderson@state.mn.us.

**Abused Children Services
FY15**

In FY15, 10 programs received funding to serve abused children (including child advocacy centers). Six of these programs are located in the 7-county metro area and 4 are located in greater Minnesota.

FY15 Abused Children Grantees		Statewide
Total Primary Victims Served		3,422
Sex	Female	64.4%

Minnesota Office of Justice Programs Crime Victim Services

Quarterly Statistical Form Definitions FY15

Data category explanations may be found, for the most part, on each specific quarterly statistical form (see appendix). Below are broad definitions that apply to all quarterly statistical forms but do not appear on the forms.

Primary Victims Served

A primary victim served is a person who is *directly* victimized by a crime and receives at least one of the “services” as defined below. In domestic violence cases, children of primary victims served are also counted as primary victims served if they receive at least one of the services defined below. In homicide cases, family and friends of the deceased should be counted as primary in most instances.

Secondary Victim Served

A secondary victim served is a person who is *indirectly* victimized by a crime and receives at least one of the “services” as defined below. In domestic violence cases, a secondary victim would include any other victim served by the program, such as an abused woman’s sister or friend, who receives at least one of the services defined below.

Services

A “service” is counted each and every time (volume count) program staff provides a service listed below. Multiple services can be performed and recorded during each contact with a victim. A service is not defined by length of time but rather each instance in which a victim is provided assistance under a category below.

Crisis Counseling/Intervention

Refers to (in-person or telephone) **crisis** intervention, emotional support, safety planning and guidance provided at the scene of a crime, immediately after a crime, or on a crisis hotline call.

Counseling/Intervention

Refers to ongoing or follow-up contact with victim after initial services were provided to offer support, safety planning, guidance, check on the victim’s progress, provide additional information or to evaluate services provided.

Information & Referral

Refers to contact to or from the victim in which you either 1) offer or notify the victim of your available services, or 2) refer him or her to other agencies for assistance/shelter.

Personal Advocacy

Refers to physically assisting victims (including non-emergency transportation) in securing rights, remedies, and services from other agencies; locating emergency financial assistance; intervening with employers, creditors, and others on behalf of the victim; assisting in filing for losses covered by public and private insurance programs including workman’s compensation, unemployment benefits, welfare, etc.; accompanying the victim to the hospital, etc. Information and referral assistance should be recorded under “Information & Referral.”

Quarterly Statistical Form Definitions - Continued

Support during Evidentiary Exam

Refers to any type of advocacy/support for a victim of sexual assault during an evidentiary exam.

Criminal Justice Support/Advocacy

Refers to any support, assistance, or advocacy provided to victims at any stage of the **criminal justice process**, to include post-sentencing services and restitution.

Emergency Legal Advocacy

Refers to **civil assistance** such as orders for protection, restraining orders, injunctions, elder abuse petitions, and child abuse petitions. This does not include criminal prosecution or the employment of attorneys for custody disputes, civil suits, etc.

Emergency Financial Assistance

Refers to financial assistance (money or in-kind) provided by your program for emergency needs such as transportation, food, clothing, lock replacement, etc. – does not include referrals to or information about other organizations for those needs.

Assistance in Filing Reparations Claims

Includes making the victim aware of the availability of crime victim compensation, assisting the victim in completing the required forms, gathering the needed documentation, etc. It also may include follow-up contact with the victim compensation agency on behalf of the victim.

Group Treatment/Support

Refers to the coordination and provision of supportive group activities and includes self-help, peer, social support, etc. Only group treatment and support services that are conducted by your agency should be counted under this category.

Therapy

Refers to intensive professional psychological and/or psychiatric treatment for individuals, couples, and family members related to counseling to provide emotional support in crisis arising from the occurrence of crime. This includes the evaluation of mental health needs, as well as the actual delivery of psychotherapy. Non-licensed provider service should be recorded under “Counseling/Intervention.”

Minnesota Office of Justice Programs (OJP)
Crime Victim Service Grantees

Changes

to

Quarterly Statistical Report Requirements for FY13

The following changes are being made to streamline certain reporting requirements and to better document the work you are doing. Please note the changes that are applicable to your funding.

A quarterly statistical report is required for each program type in each county you are being funded to serve. This is a change for some grantees and status quo for others depending on how/when you were originally funded years ago. Your award letter and contract detail the counties you are being funded to serve by program type. Quarterly statistical reports must match the county and program information in your OJP contract unless an adjustment has been approved by your grant manager. (Grantees may be providing additional services but are required to report only on the services funded by OJP.) If your contract lists one county to be served you need only to submit one quarterly statistical report (even if you serve multiple counties with that funding).

Domestic violence community advocacy (CAP) and criminal justice intervention (CJI) quarterly statistical reports have been combined. Whether your agency is funded to provide CAP services, CJI services or both in a particular county, you will need to complete the “Domestic Violence Services” quarterly statistical report form. This new form includes all the data elements of the current CAP and CJI forms together. This format will better capture the scope of work provided by CAP and CJI programs, no matter how they are categorized, as there is cross-over in the type of work between the two.

CJI programs should review the enclosed *Quarterly Statistical Report Forms Definition Guide* to see that, like reporting for all other program types, the demographics of each victim served should be recorded only once per fiscal year (rather than for each “new incident”) and that each information or legal advocacy service contact should be counted (this is now a service volume count).

In the county where an emergency shelter is located, only one quarterly statistical report should be submitted for all domestic violence services. As stated in the addendum award letter sent to shelters on July 12, each shelter allocation includes funding for non-shelter community work (i.e. CAP and/or CJI) in the same county as the shelter. This means there will be one quarterly statistical report that encompasses all domestic violence service work in the county with the shelter (shelter, CAP and/or CJI services). There will not be a separate quarterly statistical report required for non-shelter work in these shelter based counties. As detailed in the paragraphs above, if a shelter agency is funded to provide domestic violence services (CAP and/or CJI) in a neighboring non-shelter based county, the “Domestic Violence Services” quarterly statistical report form must be submitted for each county.

Please call your grant manager if you have questions. Thank you.
