QUICK REFERENCE

Optimally, the child’s feet should touch the floor.

the hips, touching the thighs, and the shoulder belt rests between neck and shoulder on the collarbone. Never place the shoulder belt under arms or behind backs.

With the child’s back and bottom against vehicle seat back, the knees should bend naturally at vehicle seat edge. When the safety belt is buckled, the lap belt fits low on

Child Ready for Safety Belt

With the child's back and bottom against vehicle seat back, the knees should bend naturally at vehicle seat edge. When the safety belt is buckled, the lap belt fits low on the hips, touching the thighs, and the shoulder belt rests between neck and shoulder on the collarbone. Never place the shoulder belt under arms or behind backs. Optimally, the child’s feet should touch the floor.

Other

Remind caregivers to NEVER LEAVE A CHILD ALONE IN A CAR. The CR is not a babysitter. Children should not spend excessive amounts of time in a CR when outside of a vehicle.

This list is not exhaustive and should not be relied upon in place of the NHTSA standardized curriculum.
