Foont Model FO12-FO19 made prior to 5/21/21.
Problem: Pieces of foam cushion from under the padding can be picked loose by the child, posing a choking hazard if ingested. Call: 866-656-2462 for a plastic insert; monitor child behavior until the repair kit is applied.

Columbia Medical
(See Inspired By Drive)

Combi USA, Inc. 800-992-6624 combiusa.com

Convertible Seats

Coccoro Model 8220 made 1/1/09-7/31/16. Problem 1 of 2: When installed forward-facing and secured with vehicle LAP-ONLY belt, excessive force may be transferred to the car seat occupant in a crash increasing their risk of injury. (Recall does not affect use of seat when installed rear-facing. If installed forward-facing with lap/shoulder belt and lock-off or lower anchors and tether). Call: 888-232-3294. Problem #2 of 2: Coccoro Model 818220 made 1/1/09-12/31/12. Plastic button on harness does not pass breaking strength when tested independently from child restraint. Call: 844-697-1690 for new harness. Zeus 360 made 2/1/09-5/31/12.
Problem: Plastic button on harness does not pass breaking strength when tested independently from child restraint. Call: 844-697-1690 for new harness.

BabyRide RF-only car seat (no base), model #378099, manufacture dates 5/1/2016—8/31/2019. Problem: The webbing of the 1-inch harness adjuster strap fails to meet the breaking strength requirement of FMVSS 213. Since the segment of this strap that fails behind the A-lock adjuster is part of the overall harness, this strength issue could potentially cause an infant to be improperly restrained in a crash. IMPORTANT NOTES: This model is branded by its manufacturer, Nania. During a portion of the recall period, units labeled as Nania BabyRide were imported into the U.S. through a new defunct distributor, Team-Tex America. Therefore, Nania and/or Team-Tex may be prominent on the CR, packaging, and ordering information, whereas the brand Combi (the most recent importer that’s responsible for this recall), may not be indicated.

BabyRide is a CR with no base that states no minimum weight (allowing use “from birth”) and is sold exclusively through institutional distributors, so most units in circulation have been provided to caregivers through distribution programs. These programs are advised to check inventory and notify clientele.

Contact: Email customerservice@combiusa.com; no remedy was announced as of print date.

Compass (See Tomy)
Convalid (See Etac) 844-876-6245 etac.us.com

COSCO (See Dorel)

CYBEX 877-242-5676 cybex-online.com

Convertible Seat

Cybex Sirona M models 518000385, 518002153, 51800387, 518002145, 518002149, 518002151, and 519000211, made 11/3/17 through 8/31/18.
Problem: It’s possible for a child to pick pieces of foam from the headrest padding, which could be an ingestion/choking hazard. Call: 877-242-5676 to get a manufacturer-provided tape kit with instructions for how to apply it to the lower edge of the headrest’s EPS foam. The car seat is safe to use while awaiting the fix, provided caregivers understand that they must monitor children to ensure they do not pick at foam.

DIONO 855-242-5676 diono.com
All-in-1 Seats

Radian RXT, Radian R100, Radian R120, Rainier, Olympia, & Pacifica made 11/25/2013-9/25/2017. Problem: The seat may not adequately protect a child when used in harnessed mode & installed forward-facing. Children using seat in booster mode are not affected. Forward-facing children using the harness, who weigh more than 65 pounds (with any installation method) MUST use top tether. For vehicles not equipped with tether anchor, use seat in booster mode. Forward-facing children using the harness who weigh 65 pounds or less whose seat is installed with a lap-only belt in vehicles without a tether anchor MUST install repair kit. Call: 855-215-4951.

Booster Seat

Problem: The headrest may crack and possibly separate from the booster during a crash. DIONO will provide a replacement seat back. The replacement seat back does not have padding; the instructions will say to transfer the original padding to the replacement seat back and how to attach the seat back to the booster base. Call: 855-463-4666.

Dorel Juvenile Group (Cosco, Eddie Bauer, Safety 1st, Maxi-Cosi) 800-544-1108 djpusa.com

RF-Only Seats

Comfy Carry Model ICI23 FSM made 5/1/11-4/25/12. Problem: Some seats were sold without lower LATCH attachment strap. Call: 877-416-8111 for new base with LATCH. Until new base is received installed with a seat belt.

OnBoard 35 Model ICI24 FSM made 5/1/11-4/25/12. Problem: Some seats were sold without lower LATCH attachment strap. Call: 877-416-8111 for replacement base with LATCH. Until new base is received installed with a seat belt.

Convertible Seats

Maxi-Cosi Pria 70, Pria 85 and Pria 85 Max, all dates since Jan 1, 2019. Problem: The car seat allows more forward head movement than allowed by FMVSS 213 when used by a child weighing more than 65 pounds and installed forward-facing using a lap-only belt and no tether. (CRs properly used in rear-facing mode are not affected.) The recall fix from Dorel is new instructions and labeling that limit use of the CR to a maximum child size of 65 pounds or 49 inches for any forward-facing installation. Owners using or intending to use the CR for a child over 65 pounds may request a free Maxi-Cosi Rodi Sport booster. Until fixed, follow these new instructions. Always attach the tether when used forward-facing, whenever possible. Call: 877-657-9546 or email priasrrecall@djpusa.com.

Booster Seat

Babideal Model "Storm," #BC90180XL, made 2/28/19 and sold at Family Dollar stores. Problem: Some required safety labels are missing, and some labels present are for non-vehicle boosters only (wrongly indicating the booster should not be used in vehicles). Call: 877-657-9546 to get a new fabric cover with appropriate labels.

Etac (incl. Convalid, R82) 844-876-6245 etac.us.com
A non-recall, consumer advisory: R82 Quokka, made May 2019. Problem: Some units, upon unboxing, have been found to have a broken RF belt guide. Call: Consumers with this problem should call 844-876-6245 to order a free fix kit with instructions.

Evenflo 800-233-5921 evenflo.com

Embrace35 made 12/1/11-5/31/13. Models:

• 30711365,
• Beginning 31511: 040, 323, 400, 398
• 3151953, 31521138, 4681205, 4681237
• Beginning 484: 11391, 11391D, 11392, 11504, 11504d
• Beginning 52: 911307A, 921040, 921040B
• Beginning 55: 311138, 311238, 311292

Problem: Harness buckle may become stuck in latched position making it difficult to remove child. Call: 800-490-7591 for new buckle or online buckle.evenflo.com.
Problem: Harness buckles may become stuck in latch position. Effectiveness of buckle to restrain child is NOT affected. Call: 877-766-7470.

Extend2Fit model 1954477 made 11/27/15-1/20/16. Problem: Recline label affixed to wrong location may result in infant too upright or toddler too reclined. To confirm unit is affected by recall, also check the recline labels (including the one identifying recline positions 1-6); on each side of seat, they should all be one language (English one side, Spanish the other). If they are not in same language, the unit is subject to this recall. Call: 800-345-4109.

1. 1908152 made 7/23/14-7/27/14
2. 183074 made 6/20/14-7/27/14
3. 182691 made 5/16/14-7/27/14
4. 1853478 made 7/11/14-7/27/14
5. 1817689 made 7/5/14-7/24/14
6. 1877535 made 5/26/14-7/27/14
7. 1813015 made 7/3/14-7/24/14
8. 1794334 made 5/20/14-7/15/14

Problem #1: Some harness buckles can become stuck in latched position. Effectiveness of buckle to restrain child is NOT affected. Call: 877-766-7470 for new buckle.

Problem #2: An additional problem for the models listed above and model #308152 (5/20/14-7/15/14) affects My Ride 65 only. If the fabric tab on the harness says “2014/06,” the harness webbing does not meet breaking strength and must be replaced. Call: 800-345-4109 for a new harness. Seat may continue to be used while waiting for replacement.

Ready Ride Models 1924519, 1923520 made 3/1/14-2/28/15. Problem: Label does not show instruction book location. (Also see buckle recall earlier on this list.) Call: 800-345-4109.
