**Make Yourself Seen!**

About half of all motorcycle crashes involve a collision with another vehicle. Often times, the driver never saw the rider--or didn't see him or her until it was too late.

To reduce the number of surprises you face every day, and help you avoid getting blindsided by someone else's last-minute decisions, make yourself visible!

**Here's What You Can Do**

Use this reflective decal on your motorcycle, helmet and anywhere else you deem appropriate. Get trained, or if you have, take an advanced course. Sharp skills are critical in keeping yourself safe on the road, you will also learn ways to make yourself more visible. Visit [motorcyclesafety.org](http://motorcyclesafety.org) for more riding tips and to register for training.

**Here's What You Can Do With This Decal**

This flyer is printed with a watermark on 3M Scotchlite adhesive. It's retro-reflective and lights up at night! Cut along the dotted lines, and use the shapes to create custom designs for your helmet or bike.
