

Public Safety Wireless Broadband Industry Day

First-of-its-kind discussion on use of dedicated broadband network!

October 22, 2015 – Rockwood’s Banquet Center
9100 Quaday Avenue NE, Otsego, MN

Elk River
Industry Day
PROJECT

11:30 AM – 12:30 PM SECB Meeting & Panel

Statewide Emergency Communications Board Meeting & Panel

What

Special panel session on public safety broadband LTE pilot network following monthly Statewide Emergency Communications Board meeting. Great River Energy and NewCore Wireless will demonstrate various public safety LTE devices and network equipment. This is a unique opportunity for board members and stakeholders to get their hands on new devices and get answers to questions about LTE.

Panelists:

- ❖ Elk River Fire Department
- ❖ NewCore Wireless
- ❖ Great River Energy
- ❖ Motorola/Ericsson
- ❖ Sonim
- ❖ Department of Public Safety Emergency Communication Networks Division

INDUSTRY DAY

Why

When traditional networks are overloaded, public safety officials need an alternate way to send data, maps, video and other information. A recent tabletop discussion showed a great interest in the use of a dedicated public safety network. Sharing the insights from this tabletop and actually seeing the pilot network and LTE devices will greatly enhance understanding of this important nationwide project.

12:30 PM – 1:30 PM Lunch & Vendor Time

Lunch and Vendor Time

Lunch will be provided following the Public Safety Wireless Broadband Industry Day.

Public Safety Wireless Broadband Industry Day is intended for:

- ❖ Public Safety Personnel
- ❖ SECB Board Members
- ❖ Regional Board Members
- ❖ Related Vendors and their customers
- ❖ Related Media
